Times are approximations, but will stay pretty close to schedule provided we are able to throw first pitch on time at 3:00pm. Make sure you report to the warm-up area to begin getting stretched 30 minutes prior to your scheduled time slot.

1st pitcher & 1st catcher are paired, 2nd pitcher & 2nd catcher are paired, and so on.

Pitchers may depart following their bullpen session. They may also choose to stay and watch others throw.

Some catchers will catch three bullpens, others will catch four. Following the completion of a catcher's scheduled bullpens, they are free to depart.
